IPM | Software Developer

DETAIL EXPERIENCE

I work with LARAVEL API REST projects for US companies, following good practices like: TDD, SOLID, etc.

Experience on:

- Multitenancy projects.
- RESTFULL standards
- Application migration from an old project to a new application

I created my first Software as a service to help non-profits to get online donations by creating their own online profile, creating plans to get donation & getting their own subdomain using:

LARAVEL monolith, VueJS, InertiaJS, AlpineJS TailwindCSS & Mysql.

I worked on web project of different kind since frontend, backend & mobile applications.

Experience with:

- Working with a great detail on frontend projects.
- Creating SPAs (single page apps)
- Mobile applications using Flutter & LARAVEL as backend stack.

I worked on web application. monoliths for internal use as private systems mainly using:

- PHP vainilla
- LARAVEL 5.1
- Mysql
- Javascript vainilla
